Late Payment Fee Structure and Disconnection Timeline

1. Purpose

Defines the late fee schedule and the disconnection timeline for residential accounts with an unpaid balance, applicable across all current residential plans.

2. Late Fee Schedule

Days Past Due	Action	Fee
1 – 5 days	Courtesy reminder (email/SMS)	None
6 – 15 days	Late fee assessed	\$10.00 flat
16 – 25 days	Disconnection notice mailed	\$10.00 flat (no additional fee)
26+ days	Eligible for disconnection	\$25.00 reconnection fee if disconnected and later restored

3. Disconnection Exemptions

Accounts with a documented medical-necessity flag, or accounts within an active declared grid emergency window per OUTAGE-WINTER-STORM-PLAYBOOK §4 (no-disconnect commitment), are exempt from disconnection regardless of days past due. The late fee itself still applies in both cases; only disconnection is suspended.

4. Fee Waiver Conditions

A support agent may waive a single late fee per account per rolling 12-month period without escalation, if the customer's payment was received by the payment processor before the original due date (a processing-delay case), or if this is the account's first late fee ever assessed. A second waiver request within the same 12-month window must be escalated per ESC-BILLING-DISPUTE.
